EXECUTIVE SUMMARY

A proven collaborator and strong leader with exceptional communication skills that foster teamwork, adaptability, and problem-solving, while effectively bridging technical and business perspectives through a solid foundation in mathematics and statistics. Digitally native with an unencumbered perspective on modern professional processes, shaped by academic experience and technological expertise, and adept at leveraging generative AI as a tool for innovation and growth. Passionate about analytics, mathematics, and statistical modelling, with a continual drive for challenge, professional growth, and deepening expertise, and a long-term goal of working in data analytics in an interdisciplinary, stakeholder-facing role that applies advanced modelling and high-level statistical methods.

EXPERIENCE

Data Analyst

Creative Destruction Lab Vancouver

April 2026 - Present

Vancouver, BC

- Manage organizational databases and improve data infrastructure to support operational and strategic decision-making across multiple program streams.
- Develop standard operating procedures and reporting workflows to improve data consistency, process efficiency, and cross-functional collaboration.
- Analyze complex operational and venture data using SQL, R, and spreadsheet-based tools to generate actionable insights for internal stakeholders.

Modelling Specialist

UBC Department of Statistics

May 2022 - May 2025

Vancouver, BC

- *Department of Statistics*: Conducted graduate research developing statistical and point process models for the spread of infectious disease, advancing machine learning approaches in epidemiology.
- *Institute of Applied Mathematics*: Developed models for analysing high-dimensional gene expression data in bioinformatics projects, enabling lineage tracing and identification of cell progeny over time.

Outreach Coordinator

Little Mountain Gallery Comedy Club

April 2023 - April 2026

Vancouver, BC

- Coordinated volunteers and contractors to successfully deliver smooth comedy events while developing marketing strategy, increasing brand awareness, and driving an average 93% year-over-year revenue growth from 2024 to 2025, with monthly peaks exceeding 200%.

Data Analyst

UBC Faculty of Education

April 2023 - August 2023

Vancouver, BC

- Conducted intersectional analysis of survey data, supporting research on educational equity for Black Canadian secondary and post-secondary students in Vancouver, BC.

Engineering and Technology Co-op Student

TELUS Communications Inc.

May 2021 - September 2021

Vancouver, BC

- Developed incident response metrics to support major events teams. Full-time co-op student on Major Events Team.
- Modelled incident management problems by performing data analysis and building interactive visualizations for six operational teams (e.g., network outages).
- Developed and supported modelling for a forest fire alert system to assess risks to TELUS cellular towers.

EDUCATION

University of British Columbia

MSc Statistics

2023 - 2025

Vancouver, BC

University of British Columbia

BSc Combined Honours in Mathematics and Statistics

2018 - 2023

Vancouver, BC

PROJECTS

Master's Thesis in Epidemiological Modelling: Designed computationally efficient models to enhance parameter estimation for SIR and SEIR frameworks, formalizing their connection to the mathematical point process and streamlining epidemiological modelling for more accurate, scalable disease modelling.

Modelling Student Knowledge in Educational Games: Built a model to measure the effectiveness of gamification for basic tasks for young children.

Canadian Improv Games Tournament Software: Developed Java software to automate performance scheduling for the Canadian Improv Games, eliminating the need for manual planning while ensuring integrity of tournament structure is maintained.

SKILLS

Languages

Python, R, Julia, Java, C++, SQL

Libraries

anndata, NumPy, Scanpy, scOpen, SciPy, Pandas, dplyr, ggplot2, knitr

Tools

Tableau, Excel, Git, Microsoft 365 (Word, PowerPoint, Outlook)

AWARDS AND HONOURS

Constance Van Eeden Scholarship (UBC Statistics)

2023

Natural Sciences and Engineering Research Council of Canada Undergraduate Student Research Award

2022

Dean's Honour List

2019, 2020

BC Achievement Scholarship

2018

BC District/Authority Scholarship

2018

GIVING BACK

Canadian Improv Games: Supported youth development in improvisational theatre by serving as referee, judge, and scorekeeper, contributing to fair competition and an engaging learning environment.

Improv Camp: Taught workshops that built participants' creativity and confidence, enriching personal growth through performance-based learning.

EXTRACURRICULAR ACTIVITIES

Comedy

Performance of stand-up and improv comedy.

Physical Activity

Skiing, weight training, walks with my dog.

Music

Playing piano, marimba, and guitar.
